◆ **Inner Bonding Seminar**
Students and spouses are invited to participate in a seven-week seminar to learn "inner bonding," a practical, self-communication process in which rational thoughts, gut feelings, and God's wisdom are brought together. The seminar is being offered by PTS pastoral therapist Nancy Schongalla-Bowman.

While people long for centeredness, they often feel disconnected from feelings and/or God. They may take responsibility for the needs of others, for commitments they've made, and for personal shortcomings, but not for their own happiness. Many times people avoid feelings through addictive patterns. As participants practice this inner bonding dialogue, they can respond to life with more discernment, integrity, and joy.

The format will include journaling, discussion, and input from books and videos on the inner bonding process. Regular attendance and confidentiality are expected, and there will be brief reading and journaling assignments between sessions. The cost is $50, $15 of which covers the books. The group will begin meeting from 12:30 to 3:00 p.m. on October 15 and continue through December 10. Please call Carol Belles to register. If finances would preclude your involvement, please speak with Michael Livingston.

Student Network Connections

Princeton Theological Seminary will provide students with direct access to the Seminary's computer network beginning in the fall of 1997. Students can plug their person computers directly into the Seminary's Ethernet network through connections in dormitory rooms on the main campus as well as the apartments in Tennent and Roberts Halls. These network connections will provide students with access to the Internet and the World Wide Web as well as to a PTS community-wide email system. Access by modem to the Internet, World Wide Web, and the email system will be improved for those students living off campus (including the CRW apartments). Computer Resource Centers will continue to be located in Luce Library, Speer Library, and Stuart Hall. A new computer resource center is slated to open this fall at the CRW apartments.

This bulletin describes Ethernet Network Interface Cards (NIC, or network card for short) recommended for use by students in connecting their personal computers to the Seminary's network. For purposes of organization, the list of recommended network cards described below is divided into four categories: desktop Intel processor-based PC's, Intel processor-based laptops, desktop Apple units, and Apple laptops. All network cards listed are for 10mbs (10mbs=10 megabits per second speed) 10BASE-T Ethernet network cards with RJ-45 (telephone-like) cable connections.

The following recommended network cards can be obtained at local computer retailers in the Princeton area or near your home, or they can be purchased via mail order. Please note that some computer systems, especially MACs, may come with an Ethernet card already installed. If so, there is no reason to purchase one of those listed. Please feel free to ask your retailer for recommendations on an Ethernet card. You are not required to purchase the brands listed, but you should purchase one that is comparable.

	Manufacturer	Description	Model	Price
Intel-based processor/Desktop	3COM	ISA bus 10mbs 10BASE-T card with RJ-45 connector	3C509B-110-TPO	$110
Intel-based processor/Laptop	XIRCOM	Credit card PCMCIA2 10mbs 10BASE-T Ethernet card with RJ-45 connector	CE3-10BT	$169
Intel-based processor/Laptop w/o PCMCIA card slots	XIRCOM	Pocket Ethernet (attached to parallel port) 10mbs 10BASE-T with RJ-45 connector	PE3-10BT	$349
Apple MacIntosh/Desktop	Dayna Comm.	Ethernet adapter, 10BASE-T;E/II-T for MAC	DPO211	$129
Apple MacIntosh/Desktop	Farallon	Ethernet 10mbs 10BASE-T, Etherwave w/AAUI Transceiver to RJ-45	PN502A	$36
LC,LCII,LCIII, Color Classic, or most Performas	Farallon	EtherMAC LC-10T, 10BASE-T	PN592A-TP	$99
Most PowerMACs (PCI bus)	Farallon	EtherMAC PCI card, 10BASE-T	PN593-TP	$95
Centris (NUBUS)	Farallon	EtherMAC II-10T, 10BASE-T/thick	PN590A-TP	$122
MAC SE30 or MAC IISi	Farallon	EtherMAC 30i-10T, 10BASE-T/thick	PN594-TP	$189
Mac PowerBook Laptop	Farallon	EtherMAC Powerbook adapter, 10BASE-T	PN550C-ADB	$239

You will also need to purchase an Ethernet CAT5 patch cable that is not less than six feet long. These are available at cost at the TBA. The patch cable connects the network card in your computer to the wall outlet. Each dorm room will have a wall outlet with three plugs: one for the telephone, one for the network, and one for cable TV. They will be clearly marked.

For those who will connect via modem, a 28.8Kbps or higher speed modem (either internal or external; US Robotics brand is a good choice) is strongly recommended, particularly for web browsing.

Help in connecting your computer to the network will be available. Information on this subject, as well as frequently asked questions, will be published on the web page at http://www.ptsem.edu. A voice mailbox (609-497-9067) is available for your questions.

Returning students may continue to use their sign-on from last year for now. This may change later to make the user name more meaningful. New students will receive a temporary sign-on and password with their orientation materials, together with additional information.

Student Network Connections

Princeton Theological Seminary will provide students with direct access to the Seminary's computer network beginning in the fall of 1997. Students can plug their person computers directly into the Seminary's Ethernet network through connections in dormitory rooms on the main campus as well as the apartments in Tennent and Roberts Halls. These network connections will provide students with access to the Internet and the World Wide Web as well as to a PTS community-wide email system. Access by modem to the Internet, World Wide Web, and the email system will be improved for those students living off campus (including the CRW apartments). Computer Resource Centers will continue to be located in Luce Library, Speer Library, and Stuart Hall. A new computer resource center is slated to open this fall at the CRW apartments.

This bulletin describes Ethernet Network Interface Cards (NIC, or network card for short) recommended for use by students in connecting their personal computers to the Seminary's network. For purposes of organization, the list of recommended network cards described below is divided into four categories: desktop Intel processor-based PC's, Intel processor-based laptops, desktop Apple units, and Apple laptops. All network cards listed are for 10mbs (10mbs=10 megabits per second speed) 10BASE-T Ethernet network cards with RJ-45 (telephone-like) cable connections.

The following recommended network cards can be obtained at local computer retailers in the Princeton area or near your home, or they can be purchased via mail order. Please note that some computer systems, especially MACs, may come with an Ethernet card already installed. If so, there is no reason to purchase one of those listed. Please feel free to ask your retailer for recommendations on an Ethernet card. You are not required to purchase the brands listed, but you should purchase one that is comparable.

	Manufacturer	Description	Model	Price
Intel-based processor/Desktop	3COM	ISA bus 10mbs 10BASE-T card with RJ-45 connector	3C509B-110-TPO	$110
Intel-based processor/Laptop	XIRCOM	Credit card PCMCIA2 10mbs 10BASE-T Ethernet card with RJ-45 connector	CE3-10BT	$169
Intel-based processor/Laptop w/o PCMCIA card slots	XIRCOM	Pocket Ethernet (attached to parallel port) 10mbs 10BASE-T with RJ-45 connector	PE3-10BT	$349
Apple MacIntosh/Desktop	Dayna Comm.	Ethernet adapter, 10BASE-T;E/II-T for MAC	DPO211	$129
Apple MacIntosh/Desktop	Farallon	Ethernet 10mbs 10BASE-T, Etherwave w/AAUI Transceiver to RJ-45	PN502A	$36
LC,LCII,LCIII, Color Classic, or most Performas	Farallon	EtherMAC LC-10T, 10BASE-T	PN592A-TP	$99
Most PowerMACs (PCI bus)	Farallon	EtherMAC PCI card, 10BASE-T	PN593-TP	$95
Centris (NUBUS)	Farallon	EtherMAC II-10T, 10BASE-T/thick	PN590A-TP	$122
MAC SE30 or MAC IISi	Farallon	EtherMAC 30i-10T, 10BASE-T/thick	PN594-TP	$189
Mac PowerBook Laptop	Farallon	EtherMAC Powerbook adapter, 10BASE-T	PN550C-ADB	$239

You will also need to purchase an Ethernet CAT5 patch cable that is not less than six feet long. These are available at cost at the TBA. The patch cable connects the network card in your computer to the wall outlet. Each dorm room will have a wall outlet with three plugs: one for the telephone, one for the network, and one for cable TV. They will be clearly marked.

For those who will connect via modem, a 28.8Kbps or higher speed modem (either internal or external; US Robotics brand is a good choice) is strongly recommended, particularly for web browsing.

Help in connecting your computer to the network will be available. Information on this subject, as well as frequently asked questions, will be published on the web page at http://www.ptsem.edu. A voice mailbox (609-497-9067) is available for your questions.

Returning students may continue to use their sign-on from last year for now. This may change later to make the user name more meaningful. New students will receive a temporary sign-on and password with their orientation materials, together with additional information.

The Volunteer Service Committee of Stewardship provides "hands-on" outreach at the local level with Habitat for Humanity, Get-Set Tutoring and Trenton After-School Project (tutoring inner-city kids), Wee Care (assisting teenage mothers with baby care), and other valuable organizations. Please consider donating your time and talents. Volunteers are needed to provide these services to the community. The framework is already in place; all that is missing is you.

General ❖ Notices

Christmas Spirit and Hospitality Needed

The Annual Presbyterian Christmas House at Stony Point is cancelled!

The international students at the Seminary do not have the option to leave campus over the holidays since the Christmas House at Stony Point had to be cancelled due to construction work. Can you invite one or several of the international students to your home to share a meal, fellowship, fun activities, and the Christmas spirit? For many of the international students, Christmas is a very difficult time of the year to spend abroad. Your hospitality will be greatly appreciated.

Attention All International Students

Because Stony Point has "no room in the inn" this year, we will try to work on some alternative options for Christmas and New Year's activities. **Please, read your email regularly to receive further information**. If you would like to get involved organizing other events, please contact either Margarete Ziemer or Peter Chang. And have a blessed Christmas, nevertheless.
